

Dal 1952 soluzioni affidabili

RELIABLE SOLUTIONS SINCE 1952

 RAMOS S.r.l. was founded in 1999 from the 20+ years' experience of the company Moscati snc dealing with electric, electronic and electromechanical components and their distribution. The company manages a wide and selected range of products from leading suppliers, including obsolete parts or parts with longer delivery time.

Please check www.amos.it for the list of parts in stock, available for immediate delivery. Since more than 10 years, RAMOS S.r.l. is an agent for the provision of electrical cables for the automotive market and industrial vehicles by serving the biggest European wire-harness companies.

Our main offer includes:

- Electric cables – **CAVI ZENIT** (www.cavizenit.it/)
- Solder assembly materials – **DICKMANN** (www.dickmann.it/)
- Machinery - **MECCANICA NICOLETTI** (www.meccanicnicoletti.com/)
- Relays and micro switches – **PANASONIC** (www.panasonic-electric-works.com/eu/)
- Electric Switches - **EVEREL** (www.everel.eu)
- Connectors (*possibility to supply Japanese connectors through a local support*)
- Various components
- Various machinery for wire-harness
